## MINERALOGIST'S REPORT.

We have before us the Biennial Report of the State Mineralogist for the years 1873-74 It is a full, in tract we give for the benefit of those of our readers who have not the opportunity of procuring a copy of the Report:

Tournors prevailed yesterday, in the absence of any proceedings in the properties of the suit had withdrawn and that there would necessarily fall.

before other bodies are discovered, freys, the sight precious metals has been disclosed in the mines upon the Comstock lode, that many years will have passed before it can be exhausted Competent persons have estimated Competent persons have estimated the value of the ore now in sight in the Consolidated Virginia and Cili forma mines, at more than one hun dred million dollars, and yet these two mines occupy only about one thousand three hundred of the twenty-two thousand feet located, and worked on the same lode It has also been estimated that the product cations, our mining resources are practically without hmit, and with one of the most industrious and bravest populations to be found any country, no uneasiness need be felt in the decay of mining enter prises in Nevada No safer invest ment for capital can be male, where such speedy and remunerative results are obtained. The funts of our mines have made thousands of men wealthy, and have built a hundred palaces more gorgeous than those of angient story, and still our array of courageous prospectors are search ing on every monators of person of the treaty of 1795, which is now the bisis of existing wealth which nature has so lavishly bestoved upon this section of our commercial relations between the legations that the President will send to the Schate San Transition of the Schate of the United States steamer San and a wealthen in the legation of the Schate was to start on a cruise lo-day. A rumor prevails that she will visit officially and smithing and think in him a modification of the treaty of 1795, which is now the bisis of existing riges fuely perpetrated on American.

\*\*MIDDLE-AGED MIN.\*\*

There are mund think to be in the saction of the section of the sect such speedy and remunerative re sults are obtained The fruits of our

ed at about seventy five thousand stopped negotiations. Cushing was points having seen a fishing boat cap to the number of votes cast at the last general election was 18,034, being to have formally recognized the size fur ont at sea and not with stand-4,000 more than was ever before Alfonso Government to day polled in the State.

FARMING, ETC., AT RENO.

[From the San Jose Agriculturist.] . We have been entertained by a call from an old subscriber in Reno, Nevada, Mr. A. J. Hatch, who was on a tour of business and observation to our pleasant valley. From him we learned much about the condition of farming affairs in that section, which are flourishing like a green bay tree. Good farming lands are in active demand, and have doubled in value within the last two years. As the country becomes more settled and the capabilities of the soil and climate are developed they find that they have a fine country for homes, in spite of all drawbacks and prejudice against sagebrush.

best soil for it is the sagebrush land, Fire Insurance Companies. Sa and wherever water can be carried and streams, it becomes the most CAPITAL CHOP HOUSE. valuable land in the State. It is only where irrigation can be depended upon that alfalfa is cultivated. The natural grass lands, which are the meadows, are not so good as the high sagebrush soils, and any high place where water can be supplied the al- RENO falfa will do well. We inquired what Belgium's capitol saw, in her it by burning straw upon a patch, so most prosperous season, the boys will that he thinks it will not trouble give Carson an opportunity to enjoy. again soon on that spot. Alfalfa is in any style desired.
